Lighthouse's Dynamic A1.8 & A2.5 is a All-in-One LED Display which is a trouble free video solution for various indoor applications.

It is simple as a plug-and play system, ready for WiFi, USB, LAN, Cloud to keep it under control on the network for remote content management and control of multiple screens. User friendly front access servicing by an unique design magnetic tool means that servicing is quick and easy.

With the diagonal of 156" & 180", make it big enough to create impact without occupying too much space. The entire display is simple and elegent, less than 40mm thick and extremely light weight.

Moreover, the power consumption is low which means the electrical costs are significantly reduced along with installation timelines.
